

SWIM SPAS · EXERCISE POOLS · HYBRID POOLS · COMBINATION POOLS

*Fitness, relaxation and fun, all in one*

Summer 2019

# The world's most versatile exercise pools

## World beating excellence

Riptide offers a world beating range of swim spas and exercise pools featuring eleven unique shell designs and three swim power systems with an indestructible galvanised steel frame. Riptide Pools satisfy every swimming level and water capacity, offering great quality and value for money.

## It's all about the counter-currents

With a variety of jet configurations, Riptide pools produce a powerful counter current to swim against that will challenge even the strongest swimmer.

Great for exercise and fun for the whole family, choose from entry level pools generating up to 1,650 gallons output per minute up to dedicated exercise pools that feature smooth and powerful Turbo jets generating a massive force of water of 2,200 gallons per minute via the fully adjustable, programmable control panel.

## A warm, relaxing pool experience

Thermostatically controlled up to 40°C, your pool is ready for you to take a dip and relax anytime you fancy. An insulated shell and cover keep the heat in when not in use.

## Ready for use, night and day, all year round

Enjoy swimming at night as Riptide pools feature relaxing colour changing underwater and bar top LED lighting. Unlike a conventional pool, Riptide pools are economical to run and require very little cleaning as they incorporate a state of the art heating, filtration and sanitising system, keeping the water warm, clean and ready for a dip, anytime.

## Pure, clean water

With high performance pumps, corona discharge ozone systems and a skimmer filter system, you can always be sure of a clean and safe pool experience in a Riptide Pool.

## Built to last a lifetime

## Quality components, quality made, with an 8 year limited warranty

Riptide pools are constructed using the finest hardware and materials with a quality Japanese made variable speed drive coupled with US made Aristech acrylic shells and Canadian Gecko electronics. There is up to 100mm of full foam insulation for maximum insulation throughout our pools and all components fit snugly inside a sturdy box section galvanised steel frame with stainless steel fixings.

Riptide Pools are designed to last, but for total peace of mind all our pools carry a 8 year limited warranty.

## No huge electricity bills

With superior 2lb closed cell foam insulation up to 100mm in depth completely surrounding the shell, plus a fully insulated cover and a heat lock cabinet, Riptide pools are extremely economical to run.

## Customer care

At Riptide we pride ourselves on producing world class products and delivering a first class after sales service with unbeatable customer care. We want you to enjoy your pool with the knowledge that you have the support from a company that **truly** cares about your needs.

Our pools are delivered and installed by highly trained teams with a full on-board parts facility and we have dedicated technicians ensuring a prompt and efficient after-sales service.

# Choosing the right Riptide pool

Riptide pools fall into four categories - which is right for you?

**SWIM SPAS** are full specification hot tubs that also feature counter current jets and a pool space to swim, operating at a temperature 37° - 40°. Perfect for fitting into tight spaces, on deck or in ground.

**RIPTIDE POOLS:** Hydros, Neptune and Titan.

**HYBRID POOLS** are for serious swimming against the power of the counter current jets with the addition of two jetted massage seats for relaxing. Designed to operate at 30-33°.

**RIPTIDE POOLS:** Manta 4.4 and Manta 5.5.

**EXERCISE POOLS** have powerful counter current jets with no air to impair visibility, created for dedicated swimmers. Designed to operate at 30-33°.

**RIPTIDE POOLS:** Oceana, Atlantis 4.6, Atlantis 5.8 and Nautilus 5.8.

**COMBINATION POOLS** feature two volume of water with a fully featured hot tub and an exercise pool with powerful counter current jets. Hot tub designed to operate at 37-40° and the exercise pool at 30-33°.

**RIPTIDE POOLS:** Poseidon and Poseidon XL.

# Riptide pools - the benefits

## For Fitness

Riptide exercise pools can form an important part of the day to day fitness regime of anyone who wants to stay in good shape. Swimming against the force of the exercise pool's powerful counter-current jets will quickly tone up your body in a low impact environment.

## For Relaxation

Thermostatically controlled up to 40°C, after a swim, lay back and relax in the warm, clear water with family and friends and enjoy the invigorating massage of the hydrotherapy jets. Being more compact than standard swimming pools, Riptide pools can be installed where space is at a premium; in a garden or courtyard, either in-ground or above ground.

## For Family Fun

Requiring very little cleaning, Riptide pools incorporate cutting-edge filtration and sanitising systems, ensuring a clean and safe pool experience for you and your family every time you take a dip.

With an easy to remove insulated lid and insulation all round the shell of our pools, heat is trapped in and so running costs are kept surprisingly low.

## Choosing the right counter current jets

There are three jet systems available on Riptide Pools, depending on model and pool size.

**Swim Jets** have a powerful water current output of up to 1,650 gallons per minute, with hard wearing stainless steel escutcheons. Fitted to Neptune and Hydros models.

**Wide Mouth Jets** offer a smooth, powerful counter-current jet system featured on the Oceana exercise pool.

**Turbo Jets** Produce a smooth, bubble free water current of up to 2,200 gallons output per minute. Fitted to Titan, Poseidon XL, Atlantis, Manta and Nautilus models. A 10 speed variable speed drive available on Pro models

# Riptide Pool features

## Integrated control system

Riptide pools incorporate a fully integrated, programmable Gecko control system for circulation, water temperature, filtration, lighting and energy saving options.

## Cover choices

There is a choice of cover designs for your Riptide pool. Choose the fully insulated, heavy-duty humpback thermal cover, designed with a rise in the middle of the cover so that rain water falls away, greatly reducing water ingress and staining.

Alternatively, choose the easy to store, roll up thermal cover. Both covers are available in coffee or grey vinyl.

The covers are securely fastened by lockable, childproof, adjustable straps along all four sides.

## Filtration systems

Riptide pools are fitted with an easy to maintain, 140ft<sup>2</sup>, top-loading filtration system with easy to replace filter cartridges plus an integrated weir which is designed to capture floating debris before it reaches the filters.

## Weatherproof cabinet

The weatherproof and maintenance free UV resistant exterior wood-effect cabinet with stainless steel fittings is colour matched to the heavy-duty vinyl thermal cover.

## Pillows

The pillows are colour coordinated to the shell and skirt combination selected, providing comfortable seating for bathers at the pool spa end.

## Pure, clean water

Working alongside the filtration system, Riptide pools incorporate a corona discharge ozone system for guaranteed pure, clean water every time you use your pool.

## Stainless steel hand rail

The Stainless steel hand rail provides additional support when swimming against the counter current jets and for aerobic exercise in your pool.

## Bluetooth audio system and TV

(Optional) The Gecko In.stream bluetooth audio system with four transducer speakers and sub woofer is available on all pools.

Designed for pool installation, the optional waterproof TV monitor system provides video entertainment in the comfort of pool.

## The relocatable swim spa

Install a conventional pool and you'll sink a lot more into your home than just a pool. If you move home your investment in the pool stays behind, often with no increase in property value.

Riptide pools are relocatable - when you move home your pool goes with you! With a galvanised steel frame and internally fitted components, simply lift your pool and take it to its new location.

The Riptide Hydros is a compact pool and spa combined in one affordable unit.

The Hydros is a compact pool and spa combined. This is definitely not an entry level pool - it is a fully functioning, incredibly well specified swim spa. The only difference is its proportions.

Designed with families in mind, the Hydros allows the kids to splash about at the jets end whilst leaving plenty of space for adults relaxing in the spa end.

### Adjustable directional jets

Comfortably accommodating six people, special features of the Hydros include four powerful pumps that can either be directed to the swim jets or diverted to the hot tub end or adjusted half and half.

The Hydros is a great place for swimming and relaxing. The Hydros is the perfect pool for youngsters learning to swim whilst still providing a quality hot tub experience. Also great for weightless exercising by walking against the adjustable counter currents.

### HYDROS SPECIFICATIONS

<b>DIMENSIONS</b>	3.85m x 2.20m x 1.17m, water capacity: 4,000 litres, dry weight: 854kg
<b>JETS</b>	4 swim jets plus 44 high power spa jets plus with stainless steel escutcheons
<b>JET PUMPS</b>	2 x 2.5hp, 2 x 2hp one speed pumps
<b>POWER SUPPLY</b>	32 amp
<b>POWER OUTPUT</b>	4 counter current jets, generating up to 1,650 gallons output per minute

The Neptune is ideal for adults and growing families

Bigger sister to the Hydros, the Neptune is ideal for growing families and adults. A powerful home pool with plenty of space to either relax in the hot tub end or get your head down and swim against the counter currents.

The Neptune's 4.2m length means you can adjust the swim jets' power and settle into a steady swim pace whilst at the same time your swim partner can relax at the spa end. The Neptune is an ideal pool and spa for taller and more efficient swimmers.

The Neptune features a four pump, four jet counter-current system, controllable for water speed, air flow and direction. All four Swim jets are individually powered to give maximum swim resistance while the lower jets give the swimmer buoyancy.

<b>OPTIONAL EXTRAS</b>	Cover lifter, in.Stream bluetooth transducer music system, in.Touch remote communication system, colour matched steps

# Titan / Titan Pro

## SWIM SPA

The Titan has an enormous amount of swimming space coupled with a great spa end to soothe away aches and stresses.

This pool is more than just a spa - it is also a serious exercise machine, with four Turbo swim jets giving you a more powerful current than other exercise pools.

Whatever your speed or stroke you won't hit the sides or kick the seats. As a reward after your swimming workout, sit back and relax in the spa end which features an array of highly effective massage jets. When it comes to value, this is a lot of pool for your money.

**THE TITAN PRO** model has the same large swimming space and spa end as the standard Titan but with the addition of a variable speed drive. The 10 speed control allows the swimmer to select the best water speed for their fitness and stroke.

## Manta 4.4 Pro

With the addition of a variable speed drive with 10 speed control, the Manta 4.4 Pro lets the swimmer select the best water speed to suit their fitness and stroke.

The Riptide Manta 4.4 is a luxurious and powerful hybrid exercise pool with two jetted cool down seats.

The Manta 4.4 hybrid pool comes equipped with four Turbo jets which provide up to 2,200 gallons a minute of clear, turbulence-free counter current with no rough swimming and no air bubbles.

The contrasting swim line provides a point of reference which helps to maintain a central position in the broad swim stream.

The opposite end of the Riptide Manta feature two full length jetted cool down seats, plus steps to enable easy access. The 25 hydro massage jets can be adjusted independently and are elegantly finished with stainless steel escutcheons.

# Manta 5-5 / Manta 5-5 Pro

HYBRID POOL

**Bigger brother to the 4.4, the Riptide Manta 5.5 is a luxurious and powerful exercise pool with two jetted cool down seats.**

With a superior length for swimming, the Manta 5.5 hybrid pool features four Turbo jets, creating an extremely powerful current of up to 2,200 gallons a minute with virtually no water turbulence or air bubbles.

The opposite end of the Manta 5.5 pool has two full length jetted cool down seats. The 25 powerful hydro massage jets can be adjusted independently and are elegantly finished with stainless steel escutcheons. The swim line on the bottom of the pool aids straight line swimming.

The Riptide Oceana is a compact but fully featured exercise pool

# Oceana

## EXERCISE POOL

The Riptide Oceana is a fully featured and stylish exercise pool, designed to slot into spaces where a 6m pool will not, whilst providing plenty of swim space.

Featuring an impressive counter-current provided by three wide mouth jets, the Oceana has beautifully styled internal steps for easy access into the pool and a chrome handrail to make counter current adjustment easy.

Quality features include an ozone system and relaxing backlit waterfalls in each corner, which are perfectly accented by the waterline lighting and underwater illumination to aid swimming. A great value exercise pool with a more compact footprint than our bigger pools, the Oceana is an ideal pool to install alongside a hot tub, or where space is limited.

### OCEANA SPECIFICATIONS

<b>DIMENSIONS</b>	4.98m x 2.20m x 1.27m, water capacity: 6,000 litres, dry weight: 1,019kg

<b>OPTIONAL EXTRAS</b>	Cover lifter, in.Stream bluetooth transducer music system, in.Touch remote communication system, colour matched steps, stainless steel support bars

### Experience a perfect combination of power and beauty in the Nautilus and Nautilus Pro in-ground exercise pools.

Built to provide a pool for competitive swimmers through to family play, the Nautilus is easy to install and own.

The Nautilus offers a huge pool area with a superior depth and width and a smooth, turbulence-free swimming experience. Power is provided by four Turbo counter current jets generating a force of up to 2,200 gallons per minute of water output.

With an ultra efficient heating, filtration and corona discharge ozone system, the water is always warm and crystal clear and ready for a swim anytime.

The Nautilus makes in-ground installation a doddle with an innovative service hatch for easy access of working parts for maintenance

The service hatch allows for the pool to be installed into a rectangular pit and then back filled, saving thousands of pounds on traditional in ground installation costs.

The Nautilus features a huge swimming space 5.9m by 2.35m wide and with a superior depth of 1.52m. Awesome jet power comes from the four Turbo counter current jets.

EXTRA WIDE 2.35m

The addition of a variable 10 speed drive in the Nautilus 5.8 Pro model allows the swimmer to select the best water speed for their fitness level and stroke.

# Poseidon / Poseidon Special

## COMBINATION POOL

The spa experience in the Poseidon is comparable to that of a luxury hot tub

### POSEIDON SPECIFICATIONS

**DIMENSIONS** 5.8m x 2.25m x 1.27m, water capacity: 7,600 litres, dry weight: 1,237kg

<b>LIGHTING</b>	Underwater LED lighting, multi point perimeter and bar top LED lighting system
<b>OPTIONAL EXTRAS</b>	Cover lifter, in.Stream bluetooth transducer music system, in.Touch remote communication system, colour matched steps

With a superior depth of 1.5m the Poseidon XL and LX Pro feature four powerful Turbo counter current jets for the ultimate swimming workout.

For relaxation the spa end features a full length lounger plus three other jetted seats, all with an array of powerful hydrotherapy jets. The pool end has steps for access which also double up as cool down seats.

The pool end and spa end have separate water temperature controls that can be adjusted to suit both exercise and relaxation.

The high specification Poseidon XL features the latest pump and heating technology for efficiency, reliability and economy.

**The Poseidon XL Pro has the same fully-featured, luxury hot tub and exercise pool all combined in two volumes of water but with the addition of a variable speed drive. This 10 speed control allows the swimmer to select the best water speed for their fitness and stroke.**

# Installing a Riptide pool in-ground

When choosing a Riptide Pool you have a choice of colour ways. For the shell choose either Sterling White Marble, Ocean Wave or Pearl Shadow\*. for the cabinet choose from Grey or Coffee. Cover colours are also Grey, and Coffee.

## Shell colour choices

Sterling White Marble   Ocean Wave   Pearl Shadow

## Cabinet colour choices

Grey   Coffee

## Cover colour choices

Grey   Coffee

Actual colours may differ slightly from colours shown.

Riptide pools can be installed either above ground or in the ground. Here is the process for an in-ground installation.

**1** First, the site must be cleared ready for the job to start.

**2** The pit is dug out and then the base laid to concrete.

**3** Concrete blocks are then used to provide strength and reinforce the pit.

**4** The crane is called into action to hoist the pool carefully over the hedge and property.

**5** Engineers work with the crane team to carefully lower the pool into position.

**Finished!** The last of the timber cladding is fitted around the concrete blocks and the installation is complete.

**6** Joists for the decking are put into position ready for the timber to be laid on top.

**7** Decking almost complete, changing rooms are ready for exterior cladding and glazing.

**8** Rolling cover working great and the changing area glazed and looking fantastic.

# Accessories

## Triple and Quad Steps

For above ground pool installation, the heavy duty triple and quad step are built from tough, UV resistant materials and are colour matched to your pool cabinet choice.

## Treadmill

Suitable for use with most Riptide models, walk or jog against the resistance of the water in your exercise pool with the underwater treadmill. With a variety of health benefits, underwater exercise, using the natural buoyancy of water, allows you to power walk or jog with minimal stress on your joints. A perfect leg strengthening workout and an excellent cardio workout.

## Row Exercise Kit

Transform your exercise pool into a hydro resistant arm and leg workout machine with the Row Exercise Kit. Suitable for Poseidon, Atlantis and Nautilus models, the Row Exercise Kit allows you to train for a boat crew or simply to build endurance and full body strength in your Swim Spa. With a few simple attachment points you will be able to row in your pool and achieve the best low-impact resistance workout of your life.

## Pool Exercise Bike

Cycle against the resistance of the pool water to build strength in core muscles, legs and glutes whilst improving stamina and burning calories. Manufactured from non-corrosive nylon and fibreglass, giving years of hassle-free operation.

# LIMITED WARRANTY

## 8 Year Structural and 5 Year Surface Warranty

Riptide warrants the galvanised steel sub frame not to crack or fracture for a period of eight years from delivery date. Additionally, the Aristech surface material of the Riptide Swim Spa is warranted not to peel, crack, wrinkle, blister, yellow, efface or delaminate for a period of five years from the swim spa's delivery date. The Aristech surfaces are non-permeable and will not absorb odours, bacteria or pollutants.

## 1 Year Trim and Cover Warranty

Riptide warrants the cosmetic trim and swim spa cover to be free from defects in materials and workmanship for a period of one year from the swim spa's delivery date.

## 2 Year LED Light Warranty

Riptide warrants the LED lighting chains and bulbs to be free from defects of materials and workmanship for two years.

## 5 Year Gecko Hi Flow Heater Warranty

Riptide warrants the Gecko Hi Flow heater against fault in manufacture or faulty workmanship.

## 5 Year No Leak Warranty

Riptide warrants your swim spa not to leak for a period of five years from its delivery date. This warranty specifically covers leaks from the wall fittings, jet fittings, internal plumbing, internal glue joints, freeze drains and all bonded parts including the filter chamber and light fittings.

## 5 Year UV Resistant Synthetic Wood Cabinet Warranty

Riptide warrants the UV resistant synthetic wood cabinet material not to peel, crack, wrinkle, blister or delaminate and to be free from defects in workmanship for a period of five years from the swim spa's delivery date. This warranty specifically covers the cabinet's structural integrity, including all glue & integral bonded joints.

## 5 Year Component Warranty

Riptide warrants the electrical components, pumps, ozone generators, and other Riptide Swim Spa components against malfunction or defects in workmanship for a period of five years from its delivery date. Filter cartridges, swim spa pillows and cover locks are not included in this warranty, but are warranted to be free from defects in materials or workmanship at the time of delivery to the original consumer purchaser.

**No-Nonsense Warranty** Riptide will make no call-out or labour charges or ask for part payment of parts for the entire warranty period, provided that your swim spa has had an annual service by a Riptide service engineer within the last 12 months to validate the warranty.

Warranty subject to full terms and conditions

### World class product, first class service

Riptide prides itself on producing world class products, delivering a first class after sales service and unbeatable customer care. We want you to enjoy your pool with the knowledge that you have the support from a company that truly cares about its customers.

### Built to last a lifetime

Every Riptide pool features a superior Aristech acrylic shell with closed cell 2lb foam for insulation. All components fit snugly inside a galvanised frame with stainless steel cabinet fixings. Our pools have some of the highest specifications of any swim spas in the world!

### Choice

With a choice of 18 great models we have the fitness pool to suit you and your lifestyle. As part of our service, our dealerships provide test-soak facilities at their showrooms, so you can try our swim spas before you buy.

### Customer care

Riptide Pools are delivered and installed by highly trained teams with a full range of parts and accessories available on-board. Dedicated technicians ensure superb after-sales service.
