SERIES

EXPERIENCE THE INVIGORATING
HYDROTHERAPY OF SYMPHONY SPAS

Symphony Spas offer the ultimate in relaxation. Enjoy the invigorating hydrotherapy as the strategically positioned cluster jets soothe tight, tired muscles in the warm, crystal clear water.

The combination of heat, water and air makes your body feel almost weightless, relieving joint and muscle aches.

Luxurious bucket and recliner seating ensures a perfect fit for your body, while specifically located jets target selected muscle groups.

The ultra efficient circulation pumps, 3kw heater and ozone system maintain perfect water quality whilst keeping energy consumption low.

Features include a range of unique jets, a beautiful and hard wearing cabinet and shell, a backlit waterfall, multi colour lighting and an optional audio system to further enhance your spa experience.

Step in to the enchanting world of Symphony Spas.

Merengue

Lower yourself into the inviting warm water of the Merengue spa and let your muscles relax and your body unwind.

The Merengue is built for up to 3 bathers and has 30 adjustable hydrotherapy jets to quickly get to work on your aches and pains.

There are also super soft pillows, water edge and underwater lighting, an air control and diverter controls to move the water pressure to different seats.

The Merengue comes fitted with world class filtration and a corona discharge ozone system which automatically kills bacteria and helps to keep the water crystal clear.

The hard wearing shells of the spas in the Symphony range are available in Pearl Shadow, Ocean Wave and as pictured here, in stunning Sterling Silver.

SYMPHONY

SERIES

Pillows

The comfortable pillows on Symphony Spas are made of long lasting ozone and chlorine resistant EVA material.

Lucite™ Shell

The shell of a Symphony Spa is crafted in industry leading Lucite™ acrylic which allows it to be molded around tight edges and soft curves without a blemish.

Cabinet

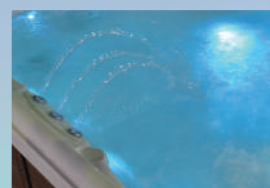

The UV resistant, wood-effect cabinet is constructed from individual slats. Panel fixings are kept to a minimum to add to the cabinet's sleek charm.

Electronics

With the most up-to-date control system manufactured by Canadian company Gecko, all spas are fitted with a reversible, back-lit key pad, waterproof control box and an efficient 3kw heater that keeps the spa water warm but running costs low.

Lighting and backlit Waterfall

The in-spa LED lighting features multiple colour settings and colour sequencing. Use the key pad to select your favourite colours. The waterfall is backlit to enhance the spa experience.
