

# Urban LITE

Spas for wellness and modern living

SUMMER 2019

## **The Urban Lite Collection by Riptide**

The Urban Lite Collection is designed from the ground up to offer maximum pleasure with minimum operating costs.

Be spontaneous with your Riptide Spa! The advanced control system preheats the water to your desired temperature for you to use anytime, day or night. The control system also allows you to adjust the lighting and to control filtration to suit your lifestyle.

Keeping the spa water Crystal Clear™ couldn't be easier. An in-spa filtration system, combined with a corona discharge ozone water purifier and optional anti-bacterial ioniser, ensures clean, clear water every time.

With the Platinum triple insulation system and efficient engineering, the running cost of an Urban Lite Spa is kept to a minimum and is gentle on the environment.

To enhance the therapeutic massage, all Urban Lite Spas come with an optional easy to connect to Bluetooth music system to help bring harmony to your spa session.

Spas for wellness and modern living

# It's all about the hydrotherapy **JETS**

Each hydrotherapy jet is engineered to be in just the right position with the right intensity to create a smooth and relaxing massage. Whether they are positioned for your neck and shoulders, your lower back or your feet, they will melt away your aches and pains and lift your spirit.

Customise your spa experience: each jet can be turned on or off by turning the jet face either clockwise or anti clockwise.

The power of each jet is adjusted by turning the bar top controls. To make the massage firmer, turn up the control to allow more air to join the spa water, turn down to reduce the amount of air, creating a softer massage.

The optional **Hand Held Massage Jet** allows you to massage your legs and upper body or anywhere that's difficult to get to with a conventional jet. The massager is easy to install using an existing spa jet face and can be removed and stored as required.

To help ease tension and soreness, many of the massage jets rotate and pulse, and with plenty of room to move about in your spa seat you can position the jets where they are needed most.

Sore feet? Many of the seating positions feature jets which deliver the ultimate foot and leg massage.

## **Filter House**

The filter and anti-bacterial ioniser are kept safely away from children, but are still really easy to access from inside the spa for filter cleaning.

# Urban Lite **FEATURES**

## Pillows

Our comfortable pillows are made from long lasting ozone and chlorine resistant EVA material.

## Lucite™ Shell

The heart of a great hot tub is its shell. We use industry leading Lucite™ acrylic which allows us to form over tight edges and soft curves without a blemish.

## Electronics

Urban Lite™ Spas feature the most up-to-date control system, manufactured by Canadian company Gecko. All spas are fitted with a reversible, back-lit key pad, waterproof In.ye-3 control box and an efficient 2kw heater that keeps your spa water hot but power needs low.

## Cabinet options

Coffee Coastal Grey

## Shell options

Sterling White Marble Ocean Wave Pearl Shadow

## Cabinet

The UV resistant, wood-effect cabinet is made from individual slats which when assembled look like high quality joinery. Panel fixings are kept to a minimum to add to the cabinet's sleek charm.

## Courtesy Light

For your safety at night and to avoid tripping in the dark, the cabinet on the Uptown, Skyline, Parkside and Mayfair features a low energy LED courtesy light.

## Lighting

In-spa lighting has seven colour and three sequencing options including a gentle rotation through the spectrum. Using the key pad you can select your favourite colour.

Spas for wellness and modern living

## LIMITED WARRANTY

### 8 Year Structural and 5 Year Surface Warranty

Riptide warrants the sub frame and structure not to crack or fracture for a period of eight years from delivery date. Additionally, the Lucite™ surface material of the Riptide Spa is warranted not to peel, crack, wrinkle, blister, yellow, efface or delaminate for a period of five years from the spa's delivery date. The Lucite™ surfaces are non-permeable and will not absorb odours, bacteria or pollutants.

### 1 Year Trim and Cover Warranty

Riptide warrants the cosmetic trim and spa cover to be free from defects in materials and workmanship for a period of one year from the spa's delivery date.

### 2 Year Gecko Hi Flow 2kw Heater Warranty

Riptide warrants the Gecko Hi Flow 2kw heater against fault in manufacture or faulty workmanship for a period of two years from its delivery date.

### 2 Year LED Light Warranty

Riptide warrants the LED lighting chains and bulbs to be free from defects of materials and workmanship for two years.

### 3 Year No Leak Warranty

Riptide warrants your Urban Lite Spa not to leak for a period of three years from its delivery date. This warranty specifically covers leaks from the wall fittings, jet fittings, internal plumbing, internal glue joints, freeze drains and all bonded parts including the filter chamber and light fittings.

### 3 Year UV Resistant Low Maintenance Cabinet Warranty

Riptide warrants the UV resistant synthetic wood cabinet material not to peel, crack, wrinkle, blister or delaminate and to be free from defects in workmanship for a period of three years from the spa's delivery date. This warranty specifically covers the cabinet's structural integrity, including all glue and integral bonded joints.

### 2 Year Component Warranty

Riptide warrants the electrical components, pumps, control box and other spa components against malfunction or defects in workmanship for two years from its delivery date. Filter cartridges, spa pillows and cover locks are not included in this warranty, but are warranted to be free from defects in materials or workmanship at the time of delivery to the original consumer purchaser.

### 1 Year Ozone Generator Warranty

The ozone generator has a warranty for one year, or 8,000 operating hours, whichever comes first.

**No-Nonsense Warranty** Riptide will make no call-out or labour charges or ask for part payment of parts for the entire warranty period, provided that your Urban Lite Spa has had an annual service within the last 12 months to validate the warranty.

Warranty subject to full terms and conditions.

# Platinum **INSULATION SYSTEM** and efficient engineering

## The ultimate in insulation

There are many methods of spa insulation, but the ultimate aim is to retain the heat in the spa water and to keep the re-heating costs to a minimum. The Platinum insulation system on Riptide Spas is designed to deliver instant access to your lovely warm spa water all year round, but use a minimum amount of electricity to maintain it.

To achieve optimum insulation, high density foam is spray-applied on the spa shell. silver foil backed insulation foam is fixed to the back of the cabinet and the two parts are fixed together to make a snug fit, eliminating any gaps.

## Efficient engineering

The pumps and heater produce heat as a by-product of their operation. Urban Lite Spas retain this heat inside the cabinet space aiding heat retention in the spa water.

## Easy to access components

Traditionally spa manufacturers position the pumps, control boxes and heaters around all four sides of the spa. With such spas, if they are placed in a corner, against a hedge or up against a wall, then in the event that an engineer needs to get inside it has to be drained, moved, repaired, pushed back and refilled, wasting valuable time and money. This is not the case with Urban Lite Spas.

All components in Urban Lite Spas are positioned on the same side as the compartment door. In the event that an engineer needs to get inside your spa all that is needed is to pull away the steps and open the cabinet!

## Heat and moisture-proof cover

The spa cover is an important barrier against heat loss. Riptide's fully tailored marine grade vinyl covers have extra insulation to maintain water temperature. The core is made of 100mm polystyrene which in turn is covered in heat-reflecting, shrink-wrap aluminium foil. This foil layer also keeps water out of the polystyrene, helping to protect the core from getting heavy through damage by ozone and chlorine which are ever present in your spa water.

Child proof locking straps, built in handles, fitted wind skirt and additional hinge insulation (a traditionally weak spot in many spa cover designs) all come as standard.

# Boulevard

Transform that shady spot on your patio with a Boulevard Spa. Perhaps unwind with a glass of Prosecco, as the relaxing warm water of the Boulevard's hydro-massage jets take away the stresses of the day.

The Boulevard is the luxury spa that fits into corners others spas cannot. There are three shell colours to choose from, with the elegant cabinet available in either Coastal Grey or Coffee.

*Designed to fit in out of the way places, the Boulevard is a generously sized two seater hot tub.*

## TECHNICAL SPECIFICATIONS

3Hp LX one speed hydro massage pump

Gecko Hi Flow 2kw heater  
Easy-clean filtration system, anti-bacterial ioniser  
Corona discharge ozone and mixing chamber

One side equipment access  
Platinum insulation includes foam shell and cabinet with sealed air gap  
Built-in drain to make water changes easy  
Bar top air control  
Optional Hand Held Massager  
8 Year limited warranty

## Boulevard 1 lounge and 1 seat

Dimensions	1800mm x 1900mm x 820mm
Cabinet	Wood FX low maintenance cabinet in Coastal Grey or Coffee
Shell	Lucite™ acrylic available in Sterling White Marble, Ocean Wave or Pearl Shadow
Jets	12 hydrotherapy jets in 4 varieties
Weight	Empty: 254 kg Full: 954 kg
Volume	700 Litres
Power Supply	13 amp
Lighting	Multi-colour lighting system

# Skyline

*Beautifully formed two seater spa with 22 jets in three varieties for a perfect, relaxing massage.*

You really want a spa at home, but think perhaps the space on your patio is an issue? Then consider the stylish and compact two person Skyline Hot tub.

The Skyline has two spacious lounge seats featuring 22 hydrotherapy jets with supportive pillows and individual jet control. Being only 820mm high, access to the rear of a property isn't usually a problem, thus avoiding the requirement of a crane.

## TECHNICAL SPECIFICATIONS

# MORE THAN A HOT TUB

## The benefits to your health and well-being

### Promotes weight loss

In clinical studies patients who use hot tubs lost an average of 3.5 pounds in weight without any new diet or physical exercise programmes.

In short, the weight loss resulted from the hot water massage simulating the effects of exercise, on the muscles.

### Stress relief

Stress results in muscle tension, headaches, fatigue and soreness. Regular hot tub use, through a combination of buoyancy, heat and massage relieves tension and stress.

Buoyancy eases pressure in joints and muscles, while heat increases blood flow to muscles and accelerates healing. Additionally, hot tub jets provide therapeutic massage, stimulating the release of endorphins, which are the body's natural painkiller.

### Lower diabetic blood sugar levels

A study by the New England Journal of Medicine found that bathing in a hot tub simulates the beneficial effects of exercise.

The result is that patients with type 2 diabetes who soak in a hot tub for 30 minutes a day, 6 days a week for 3 weeks, experience a reduction in blood sugar levels by an average of 13%.

### Be together

Spend time together, immersed in warm water. The spa becomes a private and safe place where people can relax, let their guard down, and enjoy meaningful conversation and special moments with loved ones.

### Be outside

Take a pause and appreciate beautiful sunsets, starry nights, falling snow, changing leaves, and much more. With a hot tub, you have a private retreat steps away from your door. Surrounded by nature, you can take in the beauty we often take for granted.

### Be yourself

Be at your best every day by making a spa a part of your daily ritual. Experience relief of stress and tension from sore muscles and emotional and mental benefits. Immersed in warm water, you can disconnect and emerge renewed.

### Minimise the pain of arthritis

For people with arthritis, the Arthritis Research Campaign recommends using a hot tub as an excellent way to apply heat to arthritic joints.

Benefits of a soak in a hot tub can include muscle relaxation, decreased pain and joint stiffness and greater ease when performing exercise and daily activities.

### Sleep more soundly

No more counting sheep! According to the National Sleep Foundation, 30 million Britons suffer from mild to chronic insomnia and other sleep disorders.

A study in the journal 'Sleep' showed that soaking in a hot tub prior to bedtime will not only help you fall asleep, but will provide a deeper, more relaxing sleep as the body cools.

### Lowers blood pressure

A recent study for the Mayo Clinic recommended that relaxing in a hot tub can be beneficial for heart disease patients. The study showed that relaxing in a hot tub is less stressful on the heart and more beneficial than working out on an exercise bike! The study also demonstrated that soaking in the hot tub for as little as 15 minutes will lower blood pressure.
